

# Forecourt Tyre Inflation Stand

Stainless-Steel Tower with Rotating Display

Integrated design incorporating the PCL **ACCURA** Precision measuring system.

A built-in filter/water trap with push button drain is mounted in an easy to reach position under the inflator.

## Piusi hose reel

- Galvanized steel structure moulded with electrostatic polyester powder coating
- The hose can be locked at the desired length
- 15meter X 8mm polyurethane hose reinforced with textile braid
- spring-driven retractable hose reel

The 350° swivelling head assembly can be positioned to face either side of the driveway.

No unnecessary exposed pipes or fittings, even the control buttons on the inflator are touch sensitive to avoid wear.
